Resolved, 2. That this letter be printed with the Minutes.

LETTER FROM BROTHER C. ENTZMINGER.

To the State Convention of the Baptist Denomination of South-Carolina.

LEVEL, MAY 18TH, 1854.

Dear Brethren.—Having deeded in trust to your charge a fund known as "the Entzminger Richland Missionary Fund," setting apart five thousand dollars, the nett proceeds of which are to be applied for the annual support of a Missionary (under your control) to travel in Richland district; and having been long impressed with the importance of adopting some efficient plan for the support of Ministers, for the supply of destitute Churches, and for the establishment of new places of worship; as such, I wish especially to call your attention to the establishing of similar funds in each district in the State. I am fully convinced that there are many brethren of our Church, who are able and would be willing to contribute for that purpose. But it is necessary that the importance of the subject should be brought properly to their minds. No one knows more fully than you do, brethren, the difficulty of supplying the destitute Churches in our State; and the greatest difficulty grows out of their inability to compensate Ministers for their services. Our Ministers are usually poor men, and are compelled to engage in secular employments for their support; so that only a small portion of their time is occupied in preaching. Let it be the duty of a Minister to occupy his entire time in preaching, and he will become much more efficient. The poor of our land will have

the Gospel preached to them, and the Minister will be sure of a compensation for his labors. We need not stop to inquire why it is that of all Ministers, the Baptists are most poorly compensated; nor why it is that there is so deficient a supply of them; provide the means of support for them, and many that are now engaged in the schools and academies of our country, will be found proclaiming daily the glad tidings of salvation to dying sinners. I now regret that I had not matured this plan at an earlier day; I would rejoice had I spent the vigor of my manhood in carrying it into operation; how many poor sinners might have been snatched from impending ruin, and how much more joy might we have had in the success of the cause of Christ. It is now too late, and I must appeal to you brethren to carry out that which I had contemplated doing. My labor is done; my days are numbered; and I wait patiently for my summons to depart. I appeal to you, brethren, by the ties that bind us to the cause of our Saviour, by your love for the souls of poor sinners, by your hope of a crown of rejoicing, made bright by many souls saved from eternal misery, to engage in this enterprise for the spread of the Gospel amongst the poor and destitute in our midst, and you will ever have the consolation, that "the liberal soul shall be made fat, and he that watereth shall be watered also himself."

I would suggest, brethren, that some systematic plan be adopted for raising funds, and for carrying on the Missionary work; and I earnestly hope that you will not think it presumptuous in me, in presenting for your consideration, the following plan, viz:

1st. That the Ministry, in their several fields of labor, be authorized by the Convention to take up public collections from time to time, as suitable occasions may present themselves, and obtain such private contributions as individuals or churches may be disposed to give, to make up a Missionary fund; the nett proceeds of which shall be applied to the support of a Missionary or more, in the district making such donations.

2d. That it be made the duty of each Missionary to supply as far as he or they may be able, the destitute churches in the district in which they may labor, establish such new places of worship as the necessities of the people may require; establishing Sabbath schools at suitable locations, and perform all the duties of an itinerant Missionary.

3d. That so soon as a sufficient number of Missionaries shall have been organized, the Convention employ a suitable Minister as General Superintendent, who shall have the general supervision of the work, aid the Missionaries in holding protracted meetings, and obtain a general knowledge of the different fields of labor.

4th. That the Superintendent be elected for a term of _____ years; during which time, he shall act as Chairman of a Committee of the Convention, who shall have the selection of Missionaries for the different Missions.

5th. That the same Minister be not continued more than two or three years on the same Mission, except at the earnest solicitation of the churches.

I have thrown out these suggestions, brethren, for your consideration; you may be able to devise a better plan; if so, I am content; this will, at least call up the question for your more deliberate investigation. I should

have been glad to have been able to have attended one more of your meetings; but that privilege is denied me. Many months have I suffered greatly, and I wait patiently for my dissolution, which approaches slowly, but surely. And now through faith in our Saviour, I feel that "there is laid up for me a crown of righteousness, which the Lord the righteous Judge shall give me at that day, and not to me only, but to all them that love his appearing."

Your's, in bonds of Christian love,

C. ENTZMINGER.

Rev. A. M. Poindexter, Assistant Secretary Southern Board of Foreign Missions, was welcomed to a seat in the Convention.

16. The Report of the Bible Board was submitted, adopted, and ordered to be printed, as follows :

REPORT OF THE BIBLE BOARD.

This Board has little more to report than the fact of its organization. The Treasurer, appointed by the Convention, having declined to serve, John B. Carville of Newberry, was elected by the Board in his place. No response has been heard, and no contributions have been received in answer to the appeal of the Corresponding Secretary, from any other part of the State, than the district of Newberry. The Bible Society of this district has become auxiliary to the Board, and has contributed funds to its Treasury. This Society has been in existence many years, presided over by the President of this Board, and has done much to create an interest in the great work of Bible distribution in the district of Newberry. The Board would appeal to their brethren in all parts of the State, to aid them in carrying out the work which has been committed to them ; and to this end, would recommend the formation of District Societies, to be organized and conducted, when practicable, in the manner of the Newberry District Bible Society. This Society holds its meetings once a year, with each Church in the district in succession ; the payment of one dollar a year gives the right of membership. New members are added at every meeting, who take the places of those who fall off, and thus the ranks of the Society are always kept full, and fresh interest is infused into its affairs by the visitation of successive churches. The Board believes that such organizations will be valuable auxiliaries to it in the prosecution of its work. The Board would earnestly beg their brethren, members of the Convention, to call the attention of the denomination in their several spheres of operation and influence, to the importance and claims of the great work committed to its charge—seek to interest them in it, and lead them to a cordial and vigorous support of it.

JOHN J. BRANTLY, *Cor. Sec'y.*

17. The Report of the Committee on Female Education was submitted, together with a series of Resolutions, by Judge O'Neill. Propositions in reference to the location of the Female College, recommended in the Report, were then invited ; whereupon, such were made in behalf of An-

derson and Greenville. Then, on motion, the consideration of the whole matter was deferred to to-morrow morning, to be taken up first in order of business.

18. A series of Resolutions, offered by Rev. Mr. Luther, were, on motion, referred to the Committee, to whom the Report of the Mission Board was referred.

The Convention then adjourned, after prayer by brother Cartledge, to meet to-morrow at 10 A. M.

TUESDAY, 10 A. M., JULY 25TH.

The Convention met pursuant to adjournment; after prayer, by brother Cuthbert, business was commenced, as ordered yesterday, with the consideration of the Report of the Committee on Female Education.

The Report of the Committee, together with the Resolutions offered by Judge O'Neill, were read; and after an invitation to the Committee on behalf of the town of Greenville, to take seats in the Convention, propositions were heard from Anderson and Greenville, in reference to the location of the proposed Female College.

19. The following Resolution, offered by Hon. James Tupper, was then adopted:

Resolved, That in view of the propositions before this Convention, and for the reasons urged by its Committee, this Body concurs in their opinion, that the time has come for the establishment in South-Carolina, of a Female Seminary of high character, under the direction of this Convention.

Then, after much discussion, the Report of the Committee on the Resolutions, offered by Judge O'Neill, were adopted as follows:

REPORT OF THE COMMITTEE ON FEMALE EDUCATION.

Your Committee, on whom it was devolved, at your last meeting, "to take into consideration the subject of Female Education, as a denominational interest, and to report a plan for the action of the Convention," beg leave to make the following

R E P O R T :

It will be remembered, that among the changes made in the Constitution of the Convention, at its last meeting, a clause was introduced to enlarge the sphere of the Convention's operations, in respect of education, so as to embrace, as a part of its duty, the cause of "*female*, as well as of male education." It appears from this, that the question of giving attention to female education, at some time, and in some form, as a matter of *duty* on the part of the Convention, is no longer an open one. Your Committee, therefore, were led to construe the instructions above stated, as a direction to them, to inquire, *what claims the cause of female education has upon the action of the Convention now?* This question, it will be observed, is two-fold.

FIRST. *Has the time for decisive action come? And*

SECOND. *What form should that action assume?*

In reference to the first question, your Committee, after mature deliberation, have come to the conclusion, that *the time for decided action* on the part of the Convention, as representing the denomination of the State, *has emphatically come*. This is clearly manifest from the signs of the times. Our age is a progressive one; and in no one department has this progress been greater than in that of female education. The number of Female High Schools and Colleges which have sprung into existence within the last fifteen or twenty years, is truly astonishing. Great, indeed, as has been the attention given to male education, that bestowed on female education has been far greater. This seems to have arisen from the sentiment which prevails every where in our country, that female education exerts a wider influence upon society, than the education of the males, and that attention to the former is the surest method of securing increased attention to the latter. Your Committee would farther recommend to the special consideration of the Convention, the fact, that experience seems to have demonstrated, the importance and necessity of female education being taken under denominational care; so that most of the schools founded within the last few years, whether by private individuals or by Boards of Trustees, have been established under some denominational name, and have invited denominational patronage. Our papers are also bringing us news every year, of denominational schools, founded by Associations, and Conventions, Synods and Conferences. And there is a marked disposition of late, on the part of local Boards, and of persons engaged in private enterprises, to place their seminaries and academies under denominational charge, for the sake of more liberal patronage. This disposition is also so decided, as to demand the immediate attention of our Associations and Conventions, almost every where. In the mean time, other denominations are availing themselves of it, and are eagerly embracing the opportunities which are thus providentially afforded them; and this condition of things, which has for some length of time existed in nearly all the other States of our Confederacy, has recently arisen in our own State. Our Methodist brethren have already acted; and at this very time, whilst the question of action is pending with us, it is understood that our Presbyterian brethren have a Committee appointed on the subject of a suitable location for a Female College, to report at the next meeting of Synod. There are also indications, by no means doubtful, that, in a short time, if not immediately, our Episcopal brethren will be prepared for a similar movement. These considerations, moreover, your Committee present as not only having great force in themselves, but also as made peculiarly and decisively forcible, by the *fact*, that from different localities, liberal propositions and offers will be made to your Body at this meeting, affording means amply sufficient of themselves, to lay the foundation of a noble enterprise, such as we are now contemplating. In reference to action on this great subject therefore, Providence may be said to be loudly calling upon us as a denomination to consider and decide *now*, yea, even *to-day*, whether we will seize the present opportunity, and thus be true to our Saviour's cause, and consequently true to ourselves; or whether we will hesitate, and thus allow one of the most important openings for usefulness to pass away un-

improved, and, in all probability, never again to be enjoyed, at least to the same extent.

Your Committee are aware, that there are excellent and liberal brethren among us, deeply interested in the cause of female education ; who yet, in consequence of their concern that nothing should interfere with the work of endowing the University, are saying, "let us wait until we complete *its* endowment, before we embark in any new enterprise." This objection proceeds upon the supposition, that in case we embark in the new enterprise of female education, it will be necessary to send forth an agent to collect funds for its prosecution, which, by dividing the efforts of the denomination, will retard the work of endowing the University. It is a sufficient reply to this objection to state, that the supposed difficulty will not exist ; inasmuch as the offers which will be made, are sufficiently liberal to render the sending forth of an agent unnecessary. But even supposing that this step should be necessary, still let it be remembered that it is not often the plan of Providence to suit our convenience in his orderings ; that, on the contrary, it is oftener his will to test our faith and energy, by such a concurrence of circumstances as involves great struggling, in order to compass the ends that are important to the advancement of our Saviour's kingdom.

Your Committee are further aware, that many brethren are of the opinion that the Associations should separately take charge of female education. This is freely granted ; but it does not supplant the necessity of denominational state action. For, in the first place, it would be many years before the Associations, left to themselves, could all be brought to a suitable sense of their duty on this subject. In the meantime, therefore, it is the duty of the Convention to act, so as to stimulate the Associations : then again, it is not to be expected that the Associations can ever be able to raise the standard of female education as high as it can be raised by the Convention, which represents the united means and counsels of the entire denomination in the State, and will secure its united patronage. It is evident, therefore, that conventional action in this great cause, rests upon independent grounds, and does not conflict with associational action, but rather promotes it.

Your Committee are still farther aware that many of our brethren are hesitating on the ground, that a school in charge of the Convention, would bear injuriously upon the interests of excellent schools of denominational name, now in existence. Upon all of them, if the Convention should establish its school in a new location; or upon the rest, in case it should adopt any one of them. This difficulty, as far as it is truly founded, we must all feel. It would be unnatural, indeed, and unworthy of us as Christians, not to sympathize with our brethren in the various schools they have established, by which so much good has been thus far accomplished. But still, it must be acknowledged that the question regarding the interests of other schools, and the question of a denominational School for the whole State, are not questions having equal claims upon us. For, however useful such schools have been, they cannot, from the nature of the case, be expected to exert as decided an influence upon the cause of female education in the State, as would a denominational School, in charge of the Con-

vention. Painful, therefore, as it must be to the Convention to impair, in the least degree, by its action, the interests of other schools, it is yet *bound* to act in view of its duty to the State as a whole. But it is by no means certain, and it is far from being granted by your Committee, that the supposed evils would necessarily result. The interests of these schools may, perhaps, be expected to suffer to some extent; but much of their patronage is local, and much of it also depends upon circumstances, which conventional action would not effect. They may, therefore, still continue to be useful to the public, and lucrative to those who have them in charge. The Convention will also, doubtless, take pleasure in expressing their confidence in these schools, and in commanding them to patronage. With these views of the claims of female education upon the denomination of the State, your Committee respectfully submits, that *the time for action on the part of the Convention, in the cause of female education, has emphatically come.*

We turn now to the second question—*What form should this action assume?* In reply to this question, your Committee recommend:

1st. That the Convention establish a *Female College of high order*; by which, they mean that the proposed Female Institution embrace all those branches of a liberal education that are pursued in our colleges for young men; with such modifications and differences as experience and sound judgment may dictate; and that the standard of attainment in these branches be high.

The grounds of this recommendation are two; both of which have already been implied in what has been said, and need therefore only be mentioned. The first is, that the development of the female mind is now taking rank in importance with the development of the minds of the males. The other reason is implied in these statements, in which the superior advantages that Conventions have over all private and local undertakings, and also over all associational efforts, were set forth. These superior advantages constitute a reason, why if Conventions embark at all in the work of female education, they should set up the highest standard.

2d. Your Committee farther recommend, that the plan of boarding in Commons be adopted with the strictest regulations. This plan your Committee deem of the utmost importance, and recommend it to your special consideration, inasmuch as they have satisfactorily ascertained by correspondence and inquiry, that other things being equal, female education has succeeded in proportion as this system has been rigidly carried out.

3d. That the proposed Female College be placed in charge of a Board of Trustees, after the manner of the Furman University.

4th. And lastly, that the Board of Trustees appoint a Principal or Principals, leaving it with them to appoint the rest of the teachers; and charging so much rent as may be necessary to make repairs, and carry on some improvements, together with reserving to themselves the exercise of such rights, in the meantime, as may be necessary to prevent abuses.

All of which is respectfully submitted.

J. G. LANDRUM, *Chairman.*

Resolutions offered by Judge O'Neal.

Resolved 1st. That the donation of the Academy lands by the Trustees of the Greenville Academies, be accepted on the terms set out in Chancellor Wardlaw's decree of the —— day of July instant.

Resolved 2d. That so soon as funds to the amount of \$20,000 be sufficiently secured to be paid, as the Trustees of the Furman University shall direct, a College building, of sufficient size, shall be erected.

Resolved 3d. That a College, for the education of females, to be called the *Greenville Baptist Female College*, be established at Greenville; and that the Academy lands above spoken of, and the sum of \$20,000, subscribed by the citizens of Greenville, be the foundation of the same.

Resolved 4th. That the said lands, and the funds subscribed, be transferred to and vested in the Trustees of the Furman University, who are charged with the organization of the said College, and government of the same; subject to be visited by this Body, and the donors of the land and money, through a Committee to be by them jointly appointed.

Resolved 5th. That the Trustees be directed to put the College in operation, on or before the 1st January next, in the buildings now erected on the land.

Resolved 6th. That the College, hereby established, is not intended to be in any way considered as superceding other institutions for female education, already existing, but only as additional thereto.

Resolved 7th. That the "Limestone Springs Female High School," the "Johnson Female University" at Anderson, and the "Fuller Institute" at Greenwood, are Baptist institutions, entitled to the confidence and patronage of the denomination, and that it is not intended to place "Greenville Baptist Female College" in opposition to them.

22. The Report of the Committee to select the Board of Agents, was submitted, and adopted as follows:

R E P O R T :

The Committee appointed to nominate a Board of Agents, beg leave to present the following names in connexion with the officers of the Convention : Rev. W. B. Johnson, D. D.; Rev. J. R. Kendrick, Rev. R. Furman, Rev. J. O. B. Dargan, Rev. A. Rice.

JAMES M. CHILES, *Chairman.*

Convention then adjourned to 4½ P. M.

TUESDAY, 4½ P. M..

The Convention met pursuant to adjournment; the President in the Chair. After Prayer by brother Landrum :

23. The Report of the Committee on time and place of next meeting, and persons to perform usual services, was submitted and adopted, as follows :

Time and Place of next Meeting—Newberry, on Saturday, before the fourth Lord's day in July.

Persons to perform stated Religious Services—Rev. R. Furman to preach the Introductory Sermon; Rev. John C. Breaker, alternate; Rev. J. H. Cuthbert to preach the Charity Sermon; Rev. J. H. Luther, alternate.

24. The Report of the Committee to settle with the Administrators of the estate of the late Treasurer, and with Rev. J. Culpeper, agent, was submitted and adopted; but, by a subsequent vote, was ordered to be transferred to the Board of Trustees.

25. The Report of the Committee to make all necessary arrangements for the transfer of the property and funds of the Convention, to the Board of Trustees of Furman University, was submitted, adopted, and ordered to be printed, as follows :

R E P O R T :

The Committee have acted under the resolutions by which they were appointed, but are not of opinion that they have, in all respects, fulfilled the requirements of the resolutions. The Committee regard the transfer of the bonds, cash, notes, or other personal property of the Convention, as having been sufficiently accomplished already, by the resolutions of this Convention, which have placed the same in the hands of the Furman University, whose agents have collected and disbursed a considerable portion of the fund for the purposes of the University, as the report of the Treasurer of the University will doubtless show. The Committee has prepared, however, a list of all the bonds and notes which belonged to the Convention, placing on a separate list the old bonds and notes taken before the charter of the University, and as far as they were able, the funds arising from the same, which may be assigned by the President and Secretary of

the Convention to the University ; but the Committee would recommend that the Treasurer of the Furman University be called on by the Convention to furnish a complete statement of all the cash, bonds, and property of every kind, which belonged to the Furman Institution ; specifying what has been collected and used by the University, and what remains, and for what objects the bonds were given ; distinguishing, as accurately as possible, between the available and unavailable funds of the Furman Institution, which have been transferred to the University, and preventing such information as will indicate the character and amount of property which has been transferred.

The Committee have prepared a deed, conveying the land on which the University is located, which is to be signed by the President and Secretary of this Convention, and sealed with its seal, so as to vest the title of the said lands in the Furman University, for the uses and purposes for which the same was purchased by this Convention. The deed and lists of bonds are presented to the Convention, together with this report.

Respectfully submitted,

G. F. TOWNES, *Chairman.*

26. The Report of the Committee to nominate a Board of Trustees of Furman University, reported as follows :

I. L. Brooks, J. R. Kendrick, T. Curtis, C. J. Elford, R. Furman, J. B. O'Neill, A. J. Lawton, T. P. Lide, J. A. Lawton, J. J. Brantly, J. P. Boyce, H. D. Duncan, J. W. Brooks, Z. Watkins, J. Culpeper, H. A. Duncan, I. Nichols, W. P. Hill, H. J. Dean, A. P. Lacoste, R. G. Edwards, W. Brooker, H. W. Paslay, T. B. Roberts, J. T. Coleman, B. C. Pressley, E. T. Winkler, J. G. Landrum, J. Tupper, A. Rice.

The Convention then proceeded to ballot, and the above named persons were elected to constitute the Board.

27. The Report of the Special Committee, to which was committed the Report of the Mission Board, Publication Board, the Letter of brother Entzminger, and the Resolutions of brother Luther, was submitted and adopted, as follows :

The Committee, to whom was referred the Reports of the Mission and Publication Boards, the letter of brother Entzminger, and the Resolutions submitted by brother Luther, beg leave to submit the following Report. They recommend the adoption and publication of the Report of the Mission Board, and in order to carry out its recommendations, propose for the action of the Convention, the following Resolutions :

Resolved, That the Board of Publication be united with the Mission Board at Columbia, and that the two Boards be known as the *Board of Missions, Publication and Colportage.*

Resolved, That this Board, thus united, direct its special efforts to the business of Colportage; though not to the neglect of any active missionary labor, in which they may be able to engage.

Resolved, That the Board be directed to raise a fund for Colportage, amounting to \$10,000, as soon as practicable; the half of which shall be permanently invested; the other half to be used as a sinking fund for salaries of Colporteurs; the principal of which shall be used only when absolutely necessary.

Resolved, That the donation of brother Entzminger, called "The Entzminger Richland Missionary Fund," be committed to the charge of the Board at Columbia, to be used in furtherance of the design of the benevolent donor.

They recommend the printing of the Report of the Publication Board, in the Minutes, and propose to embody the substance of the Resolutions of brother Luther in the Report of the Education Board.

T. P. LIDE, *Chairman.*

REPORT OF THE MISSION BOARD.

In entering upon their duties, the attention of the Board was directed to the field in which they were called to labor, and they were forced to the conclusion, that it would be impossible for the Convention to engage actively in Missionary operations. The existence of the Domestic Board of the Southern Baptist Convention at Marion, and of the various Boards in this State, render unnecessary an active Board, connected with the State Convention. They, therefore, have concluded that the proper position for our Board, is simply to act in the transmission of funds to the Board at Marion; and, as their adviser, to point out to them the places they can most successfully occupy, and to receive from our Associations who may choose to furnish them, reports of their Missionary operations, and to incorporate these with any other Missionary intelligence, connected with our State enterprizes which they may glean, in a Report to be published with the Minutes of the Convention. The Board have been confirmed in the correctness of their opinion, by the fact, that during the past year there have been no indications on the part of the Associations, of a wish to place under their charge, the Missionary operations in which they have been engaged, and no funds have been placed in their hands for independent operations. They, therefore, present the determination to which they have come, to the Convention, and trust that it will meet with their approval. There is, however, a field of active employment, in which your Board would gladly engage, were it within their province, and in which they think the true Missionary work of the Convention lies. It is that of Colportage. By means of six or ten Colporteurs, they estimate that every house in the State can be visited annually, and books can be left, by which much good can be accomplished; and when the Colporteurs who may be sent out are ministering brothers, even the labors of the Missionary can be combined with those of the Colporteurs, and a full Missionary work accomplished.

By the connection of Colportage with the Missionary Board, they will also be able to obtain information to a large extent, which will fit them eminently to give advice to the Domestic Board at Marion, and secure for them the favor of the Associations through a like assistance given to them.

Your Board, would, therefore, suggest to the Convention the combination at Columbia of the Publication Board, to which Colportage naturally belongs, with the Mission Board. Should this not meet the views of the Convention, they would like a separation of Colportage from Publication, and its union with their Board. But should the Convention determine still to keep separate the two Boards, in every respect, they would suggest the removal of the Mission Board to Charleston, and the establishment of the Board of Publication and Colportage at Columbia. The Board are aware that means will be requisite to enable the Convention thus actively to engage in the work of Colportage; but they feel confident that they can easily be commanded for so important a work, and are willing to undertake the work if the Convention will but sanction it, being well assured that the denomination will rally to secure permanent success to their efforts.

JAMES P. BOYCE, *Cor. Sec'y.*

REPORT OF THE PUBLICATION BOARD.

The Publication Board, located at Robertville, was appointed at your last session, and composed of brethren who were not with the Convention at the time of their appointment, and were consequently deprived of the privilege of participating in the proceedings which resulted in the establishment of this and several other Boards, having in view, doubtless, a more enlarged sphere of usefulness for the future action of your Body. Upon looking into the matter, your Board could discover no means by which they could render any material aid in the publication department, in which Southern Baptists are now engaged, through a regularly organized society, of which many of us are members, and some life directors. Presuming that the intention of this Convention was to further and aid the scheme now in successful operation, through the above mentioned society, and not to establish an independent Board, and not being able to recognize the means of useful cooperation with the Southern Baptist Publication Society, it was thought best to await further light and information on the subject. If the Convention still determine that it is expedient to have a Publication Board under its control, your Board would suggest its location at some more central point, which shall be of easy access to the whole State, such a place as Charleston or Columbia.

ALEX. J. LAWTON, *Chairman.*

The Report of the Education Board was then submitted, and adopted, as follows :

The Education Board, appointed by the Convention at its last session, met at Society Hill on the 1st of August last, and was organized by the election of officers. The Secretary was instructed to issue a circular, calling the attention of Baptists, throughout the State, to the objects contemplated by the Board, and to obtain a list of the members of the old Education Society. Brother A. R. Durham, who had been sustained by that

society, was adopted a Beneficiary of the Board, and several applications were made on behalf of others, which were declined for want of funds. The cause of ministerial education demands the earnest, continued and liberal support of our people. The encouragement of indigent young men in acquiring a classical and theological education, is a primary object of the Convention, which we trust is destined to receive increased attention. The Board to be rendered an efficient instrument of good, must receive the sympathy and support of our churches generally. With the hope of advancing this object, we respectfully and earnestly invite our churches to form societies auxiliary to this Board, or take such other action in its favor as their better judgment may suggest.

T. P. LIDE, *Sec'y pro tem.*

29. The following resolution was submitted by C. J. Elford, and adopted :

Resolved, That the various Boards under the control of this Convention, do require from their Treasurers, bonds, with good securities, for the faithful discharge of their duties for such amounts as the said bonds may respectively determine.

30. A resolution appointing the same persons to serve on the Boards as last year, with the following changes, was adopted.

Publication Board united to Mission Board at Columbia.

The following are the Boards for the year :

31. C. J. Elford was elected Treasurer of the Convention.

32. Ordered that two-fifths of the collection taken up on Sunday, be given to the Board at Columbia, and one-fifth to each of the other Boards.

33. The Report of the Committee, on notice of deceased Ministers, was submitted and adopted, as follows :

The Committee, charged with the duty of preparing notices of deceased Ministers, record the names of three victims of the destroyer; the Rev.

Daniel Sheppard, the Rev. L. M. Cohen, and Rev. Abner Fant. *Brother Sheppard*, though a native of New Jersey, moved to this State in early life. He commenced preaching in Charleston, and made the low country the scene of his labors. He was a man of humble piety and blameless reputation; kind and gentle in disposition, and unpretending in deportment. The respect in which he was held by his brethren, was evidenced by the fact, that on more than one occasion, he was called to preside over the deliberations of the Charleston Association. His last labors in the Ministry were devoted to the colored people of Edisto Island, where he died at an advanced age, after a protracted illness. *Brother L. M. Cohen* had but recently completed his education at Furman University, and entered the ministry in connexion with the Church in Georgetown. He gave the fairest promise of an honorable and useful career; his earnest piety, cultivated talents, and engaging manners, excited the expectation that he would become a distinguished blessing to the cause of Christ. He had succeeded in securing the devoted attachment of the Church of which he was Pastor, and the general respect of the community in which he lived, when he was suddenly removed from earth by the orderings of an inscrutable Providence. He died in Georgia, widely and deeply lamented. The Rev. *Abner Fant* closed a useful life at a good old age, in Anderson District; his ministerial labors had been chiefly expended in Fairfield. No minute information concerning him has been furnished to your Committee.

J. R. KENDRICK, *Chairman.*

The following resolutions were offered by Judge O'Neill, and adopted:

Resolved, That the thanks of the members of this Convention be presented to the Greenville and Columbia Railroad Company, the South-Carolina and Charlotte R. R. Company; the Wilmington and Manchester R. R. Company; and the King's Mountain R. R. Company, for their kindness in permitting their passage to, and return from, this place for one fare.

Resolved, That the thanks of this Body be presented to the brethren and citizens of Greenville, for their kind hospitality which they have extended to this Body.

Resolved, That the thanks of this Body be presented to the President, for the kind and correct manner in which he has discharged his duty.

The Convention then adjourned to $8\frac{1}{2}$ o'clock this evening.

FRIDAY, $8\frac{1}{2}$ P. M.

Convention met pursuant to adjournment.

35. *Ordered*, That the Report of the Committee to settle with Administrators of the late Treasurer, and with Rev. J. Culpeper, agent, be transferred to the Board of Trustees.

36. *Ordered*, That 2,000 copies of the Minutes be printed, and the same plan of distribution be followed as last year.

After prayer by brother Winkler, the Convention adjourned.
